

HANDA TEKNOLOGI INDONESIA

Water and Wastewater Solutions

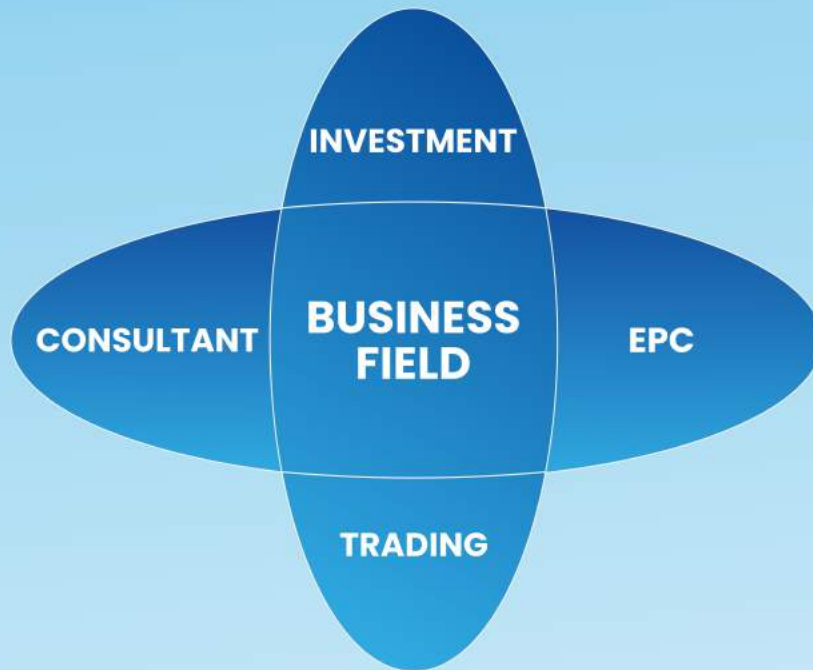

**COMPANY
PROFILE**

COMPANY OVERVIEW

HANDA TEKNOLOGI INDONESIA, PT is a national consulting, firm and contractor in the field of water and wastewater treatment. We are supported by professionals and expertise. We have experience in water treatment in manufacturing, food and beverages, pharmacy, petrochemical, textile, paper, mining industry, and office building.

GOALS

Our goal is to help customers in making the right decisions as a solution in problem-solving based on engineering principles. Since established, we committed and focused as a consultant & expert in water and wastewater treatment. We are passionate to share our knowledge and technology in optimizing the system.

CONSULTANT

Listening and understanding our client's needs or inquiry will always be our top priority. So we are present as a consultant **to help our client to choose and decide the right solution for their needs.** We are ready to assist and supervise step by step in each process. We have **experience** in consulting many clients for design & build a water treatment plant.

ENGINEERING, PROCUREMENT, AND CONSTRUCTION

We could provide & coordinate **all engineering design, procurement and construction work** and ensure that the whole project is completed as required and punctual. We also provide a **Commissioning test and after sales services** for the facility that have been built. We are obliged to deliver a complete facility to a client who needs only "turn a key" to start operating the facility and we are guaranteed that our design could meet your needs.

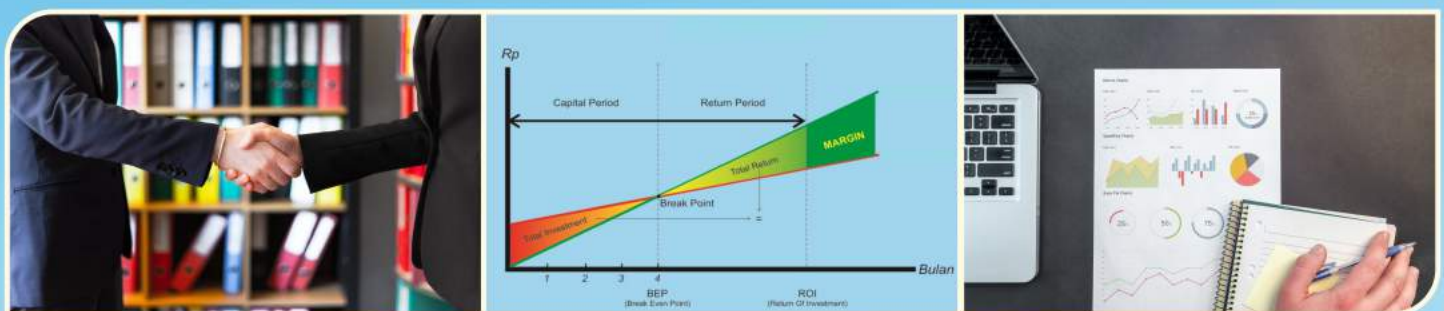

ENGINEERING DESIGN

INVESTMENT

In order to adapt to customer needs and flexibility in doing business, we provide **Build Operate Own (BOO)** and **Build Operate Transfer (BOT)** patterns as a solution for funding issues in the construction of an infrastructure or factory facility, especially water and wastewater treatment plants. After the terms of the contract in the BOO and BOT agreements are completed, we are ready to proceed with the operation and maintenance contract for the infrastructure that has been built. We also provide the needs of consumable materials and spare parts related to the infrastructure.

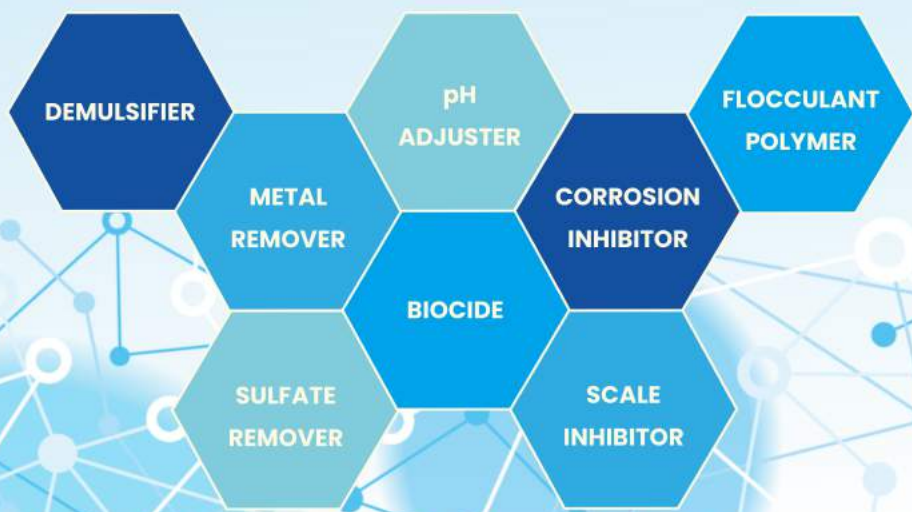

PLANT SERVICE & CONTRACT MAINTENANCE

TRADING

We provide **specialty and general chemicals**, equipment specialty, and general for water & wastewater treatment with quality and delivery you can count on every time.
